to a long contest. One of the latest indications to that effect are the preparations now being made in all the Reading Company's shops in this city to curtail operations and

Orders were issued in the machine shops this morning that all tools be gathered up and arranged as though the strike would dast six months.

In the car shops it is understood discharges are about to be made by the wholesale. The officials made a feeble attempt to deny the rumor this morning, but when General Manager McLeod was here the other day he gave every department a thorough in-vestigation, and men have since been placed on half time and many others were sus-pended indefinitely.

In the coal regions mules are being hoisted out of the mines, and there are other evi-dences that the company is arranging for a prolonged struggle.

Miliam T. Lewis, Master Workman of the Milers' National Assembly, arrived here this morning after spending the entire week in Philadelphia, where he had a number of conferences with President Corbin and other railroad magnates.

The members of the strike committee freely express themselves that if Mr. Corbin persists in refusing to reply to Mr. Lewis he will put himself plainly in the position of encouraging and fermenting the strike and thus furnish additional evidences that the Reading is in a consultance with other corpora-

Reading is in a conspiracy with other corpora-tions to crush organized labor.

Master Workman Lewis has announced his intention of attending the meeting of Dis-trict Assembly No. 130, Knights of Labor, in

all classes of workingmen.

It is understood that the strike will be considered in all its phases, but whether or not action will be taken cannot be decided.

There is much uneasiness among the shop hands on account of the rumored closing of some of the departments, and the failure to secure arbitration this week, it is feared will,

The new Heading Railroaders' District Assembly No. 124, will meet here to-morrow afternoon for permanent organization, but on account of the existing strike troubles it is believed that the temporary officers, with P. W. Hawmons, of this city, as Master Workman, will be continued.

Workman, will be continued.

An expression in regard to the strike is expected from that body. It is stated that suits will be entered against the Reading Company by some iron manufacturers because they were compelled to bank up their furnaces owing to the scarcity of coal.

The salvation of most of the furnaces has been the great influx of coke, which fairly flooded the Schulkill Valley this week.

A peculiar feature of the strike has been the starting up of charcoal furnaces which have been idle for years, their owners seeing a business opportunity now that a number of anthracite furnaces have gone out of blast.

Nearly all the collieries in the Schuylkill region are idle to day and the situation there is unchanged.

## WAITING FOR THE STRIKE SIGNAL.

Inspector Byrnes received a despatch this morning from Gen. Ceballos, President of the State of Mexico, saying that the law officers had advised him that Harry Benson, alias Bourton, who swindled the Mexicans out of \$20,000 on a sale of bogus seats for a Patti concert, could be extradited under the treaty with the United States, and that the papers were being prepared.

eral, called upon the Inspector to say that he had received a similar despatch, with instructions to see that Benson is held to await the arrival of a Maxican officer to take him back for trial.

Marcus Mayer, a partner of Henry E. Abbey, was sent for, and a course of action was agreed upon. Benson was taken before Justice Smith and discharged, and accompanied by Detective Sergeants Adams and Handley with Consul-General Navarro and Mr. Mayer as witnesses, he was sent to the Federal Building to be disposed of by the United States Commissioners.

Mr. Mayer was firm in the belief that Benson could be prosecuted here for bringing stolen money into the United States, and he felt mosally certain that he could gather sufficient evidence to give him a long term in State prison. He is willing, however, to give the preference in prosecution to the Mexican authorities, who, if they get him, will put him away for a term that will end his career of crime.

Benson was very cool and defiant. He said to Mr. Mayer.

PITIFUL STORY OF A TRUSTING GIRL WHO WENT ASTRAY.

Her Mother, Her Promised Husband and the Midwife Arrested on Suspicion of Hav-ing Caused Her Death-Justice Murray Sees No Evidence of Crime in the Case and Paroles the Prisoners.

Katie Fischer, a fair-haired girl, twenty ears of age, lay dead to-day in the rooms of Mrs. Bertha Schroeder, at 904 First avenue. Veronica Fischer, the girl's mother, Emil Weber, her promised husband, and Mrs. Schroeder, were arrested on suspicion of causing the girl's death.

The prisoners were taken before Justice Murray, at the Yorkville Court, where a sad Story was told.

Katie was the daughter of Amos Fischer, a wagon-maker, of 457 West Forty-fourth street. Two or three years ago she met Weber, a musician, now twenty-one years old. He lives at 607 West One Hundred and Thirtieth street. The couple were engaged to be married, when Weber betrayed the confidence which his sweetheart reposed in him.

m. When the girl discovered her condition she When the girl discovered her conductor she told her lover, and after a consultation, they decided to ask the advice of Mrs. Fischer. Katie, with tears and sobs, made her confession and entreated her mother to keep the secret from her father, whom she loved so dearly that she could not endure the thought of his learning of her disgrace. The mother promised.

of his learning of her disgrace. The mother promised.

Weber was willing to marry Katie at once, and Nov. 15 was fixed for the wedding. The humble trousseau was provided, and Weber began looking for rooms. One day Katie surprised her mother and lover by fistly refusing to be married until her child was born. She said that a friend had told her that if a woman married under these circumstances, both mother and child would die. The arguments and entreaties of Mrs. Fischer and Weber were powerless to turn Katie from her resolution. her resolution.

Late in November she was taken to Mrs.

Late in November she was taken to Mrs. Schroeder's house. A specious excuse to account for her absence was made to her father. Weber visited his betrothed as often as his engagements would permit, and Mrs. Fischer risked exciting her husband's suspicions in order to be with her daughter.

Katie got along nicely, and her child, a fine boy, was born last Sunday. The young mother improved until Thursday, when in some unaccountable manner she took cold.

Yesterday Dr. King, of 257 East Fifty-second street, was called in. He found Katle sinking rapidly, and advised her friends to send her to a hospital. At St. Luke's and the Roosevelt Mrs. Fischer applied for an ambulance, but it was refused. Soon after midnight Bellevue responded to the call, and Dr. Collins went with an ambulance to the midwife's house.

Dr. Collins went with an ambulance to the midwife's house.

Katie was dying. Dr. Collins said that it would be useless to remove her. At about 2 o'clock she died in her mother's arms. Weber was present. The surgeon notified the police, and Detectives Cuff and Kane, of the Fifty first street station, arrested Mess-Fischer, Mrs. Schroeder and Weber. The midwife showed her diploma to Justice Mussel.

The Justice then advised Fusari to go over the proceedings again and obtain a burial permit from the Board of Health.

It was a misdemeanor under the law to intercept a funeral, and if the summons had reached Undertaker Whalen he would have had to surrender the burial permit he holds.

The trouble arose over the action taken by the Italian societies in placing the funeral arrangements in the hands of the Italian undertaker and surrendering the body to him after Mr. Whalen had been engaged by the the widow.

The Board of Health having granted one permit declined to grant another, holding that it had no further jurisdiction in the matter.

The statement printed in this paper was an accurate reproduction of that made by President Hazard in the presence of two Evaniso World reporters, and was as follows:

F. C. Holins was the prime mover in the conspiracy, and he began it about a year ago. He got young Frederic A. Potts to join him and then deorge II. Potts. He was put on the directorate by a finke during my temporary absence from the city, and hundreds of people have since expressed their wonder how he got in, and their belief was that it would be better for the company if he were put out.

TWENTY-THREE DAYS OUT. The Unlucky Steamship Britannia Overduwith 850 Steerage Passengers. The French steamer Britannia, from Medi terranean ports, which left Gibraltar on Dec. 22, is now long overdue at this port, and

some apprehension is felt as to her safety. The vessel carries a full cargo of l and Spanish merchandise and passengers.

The general passenger agent of the vessel here says that it is quite likely that the Britannia is disabled at sea and is proceeding Britannia is disabled at sea and is proceeding to this port under sail.

She is brig rigged and does not carry much canvas, and her progress must necessarily be slow. He fears she encountered some logs of the broken timber raft, and may have lost or broken her propeller.

The steamer Venice, which arrived from Gibralter the other day, passed through thirty miles of these logs, and it is very possible, he thinks, that the Brittania, too, fell in with them.
